

Weatherhead Height

36 Inch Maximum
24 Inch Minimum

NOTE: ALL WIRING SHALL MEET NEC CODE

GROUND ROD
5/8" x 8' Copper Rod or Galv. Rod
3/4" x 8' Galv. Pipe

OVERHEAD SERVICE TO WEATHERHEAD

The builder or electrician will install adequately sized galvanized pipe to meet the above height requirements illustrated above to ensure that 18 inches of clearance can be obtained from drip loop to roof.

Wiregrass Electric will furnish at no charge the overhead meter base that will be installed.

An 8' ground rod is to be installed and shall not be exposed above grade. This is to ensure that the entire length of the rod is in contact with the earth as per NEC Code 250.53(G).
